

Leaves of 'spiny-leaved' *Plagiochila* species

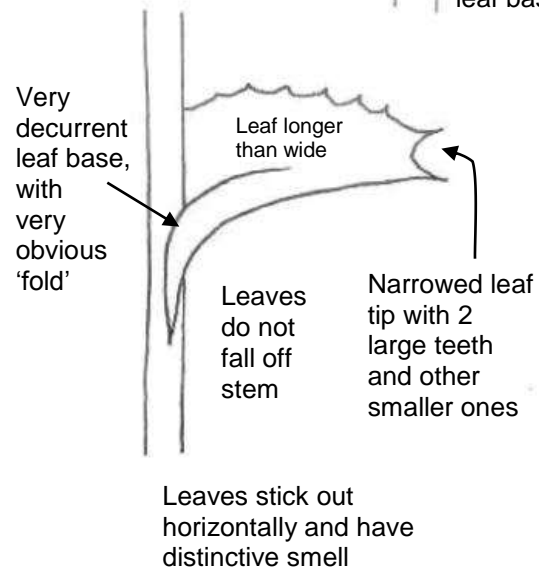

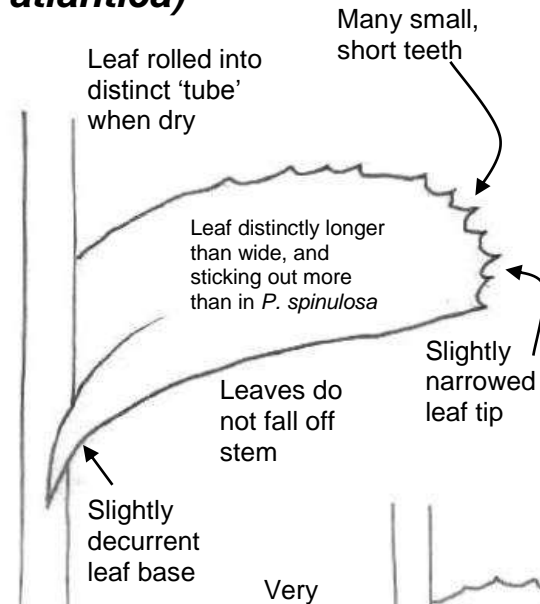

P. spinulosa

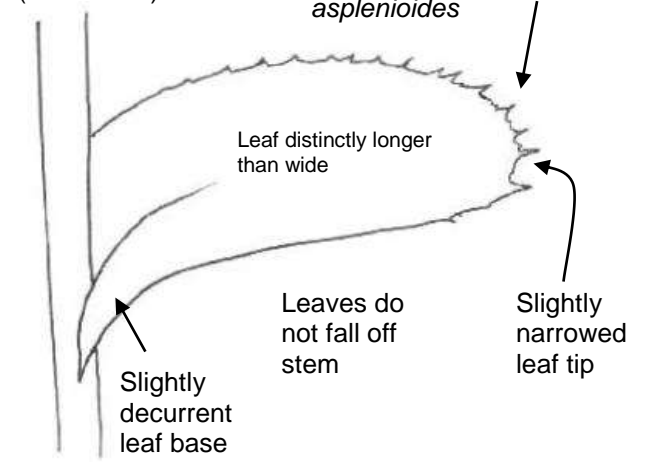

P. punctata

P. heterophylla (= *P. atlantica*)

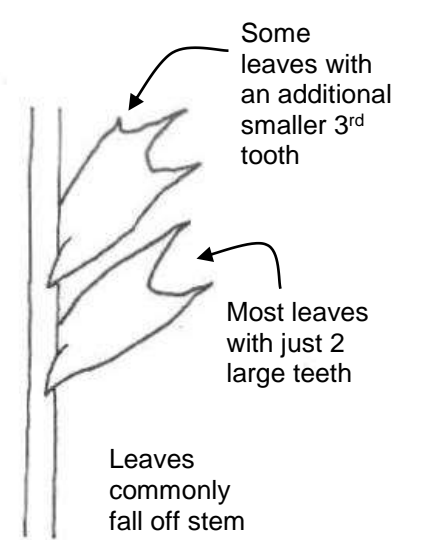

P. killarniensis

P. britannica (a calcicole)

P. exigua

Small Lejeuneaceae of West Highland woods (*very quick rough sketches!*)

Microlejeunea ulicina

Mainly on trees

Cololejeunea minutissima

On trees (esp. hazel & elder)

Aphanolejeunea microscopica

Mainly on rocks

Drepanolejeunea hamatifolia

On rocks and trees

Harpalejeunea molleri

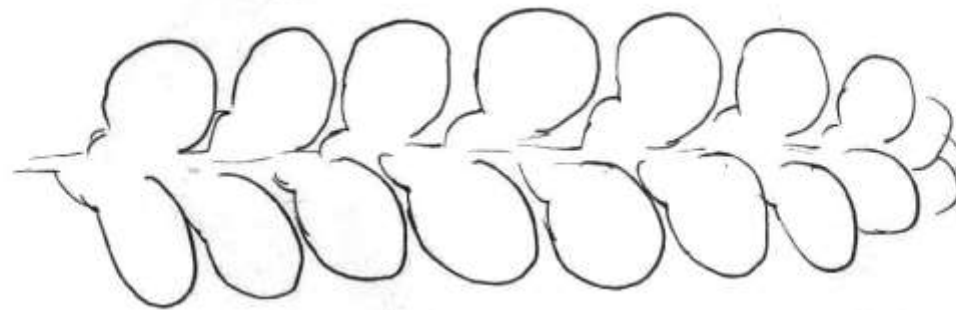

On rocks and trees

Cololejeunea calcarea

On base-rich rock

Lejeunea sp. for comparison (this one is *L. patens*) (found on rocks and trees)
